

What are cookies?

Cookies are files, mainly text files, that are stored on your computer or other internet enabled device when you visit some websites, including this website. Cookies usually contain the name of the website they belong to, its lifetime (the time cookie will remain on a device) and a unique number.

Waywer placed in Lublin at Tomasz Zana Street 11A (postcode 20-601) is the subject that sets cookie files on user devices and has access to them.

What are cookies used for?

Cookies are a mean to collect some data regarding user's use of the website. Cookies enable:

a) maintaining user's session (after login), meaning the user doesn't need to login to each subpage of the website;

b) adjusting the content of the website to user's preferences and optimization of website's use; in particular, cookies allow identification of user's device and hence proper display of the website, according to user's individual needs;

c) creation of statistics that allow us to understand how users move around our website; that in turn helps us to improve on website's content and functionality.
